ELECTRICAL APPRENTICESHIP CANDIDATE

Varsity Lakes, QLD | 0407 262 167 | LJKelly021@gmail.com

CERT II ELECTROTECHNOLOGY • WHITE CARD • P LICENCE + OWN CAR • CURRENTLY EMPLOYED

RE: FULL-TIME ELECTRICAL APPRENTICESHIP

Dear Hiring Manager,

My name is Luca Kelly and I am currently a Year 11 student at Varsity College. I am looking for the opportunity to leave school and start a full-time electrical apprenticeship. Completing my Cert II confirmed for me that this is the career I want to pursue, and I am keen to get started and learn on the job.

I completed my Certificate II in Electrotechnology through Gold Coast Trade College. I also hold a White Card and asbestos awareness training, have my provisional manual licence, my own reliable car and basic hand tools. I have completed work experience with a retiring electrician and also have casual trade-assistant experience with RTD Fabrication.

I currently work at KFC while I look for my start in the electrical industry. It has helped me build good work habits around turning up for rostered shifts, taking direction, working as part of a team, following procedures and keeping busy in a fast-paced workplace.

I understand that taking on a first-year apprentice is a commitment and I am not expecting to walk in knowing everything. I am looking for a chance to learn from experienced tradespeople, build my skills and work towards becoming a qualified electrician. I'll work hard, be reliable, have a good attitude, follow instructions and do the jobs I'm given properly.

I would really appreciate the opportunity to meet you and introduce myself. I am also happy to complete a short supervised trial or an appropriate work-experience placement if that would help you see how I work and whether I would be a good fit for your team.

Thank you for considering my application. I hope to hear from you
